### **Start-up Business Plan**

#### 1.0 Executive Summary

This business plan is that explains why we need to take 88.394 investment. The investment that will we receive is going to support our growth and our net profit will be 266,249,01 after 2 years. The purpose of this plan is to provide additional funding from an investor.

Gezdirio.com will start a new era for tourists and tourist guides. The application is agent between tourist and tourist guides and providing information about touristic places and trip recommendation for tourists.

We offer our users who are tourists an excellent travel experience with our easy and free to use application and also providing a wide range of tourists for tourist guides.

The recent increase in the number of tourists arising from the depreciation of the Turkish Lira has created an opportunity in the tourism sector. This opportunity will increase the demand for Gezdirio.com application.

This app will provide revenue from the application ads and subscription fees from tourist guides, which will be completely free for tourists.

#### 1.01Business Description

Our business is service business start-up. Form of this business is partnership. We create an application for tourist and tourist guides. The application is agent between tourist and tourist guides and providing information about touristic places and trip recommendation for tourist.

#### 1.2 Objectives

- Our objective is attract minimum %10 of Tourist who travel at Turkey.
- To offer tourists who are users of our application an excellent travel experience with our easy and free to use application.
- Providing a wide range of tourists for tourist guides.

#### 1.3 Mission and Vision

#### Mission

- We provide trip recommendation and give information about touristic places for better travel experience.
- By providing annual subscription service to the guides and agents, we
  provide easier access to customer. Our main goal is to help them find
  to appropriate guide for the tourist, to reach more people for the guides.

#### Vision

- We will be indispensable application for tourists.
- We will provide the widest and the easiest information to tourist.
- The tourists who want to trip with guide can find their guide for more efficient tour.
- In addition to being a new start up, we aim to reach a lot of users in a short time by bringing a new perspective and convenience to the tourism sector and by using developing technology.

#### 1.4 Strengths and Core Competencies

- There is increase at number of tourist each year in Turkey so its affect to tourism sector positively. And we are the new, technological and the best option for easy travelling and learning the new places.
- We do not receive any money from tourists for this service they use.
- We offer a tourist pool where the guides can not reach by their own.
- We connect together the guide and tourist in a very short time and provide the information the tourist needs.
- We make easier for tourists to travel around, to get to know the surroundings and to provide more efficient trip experience.

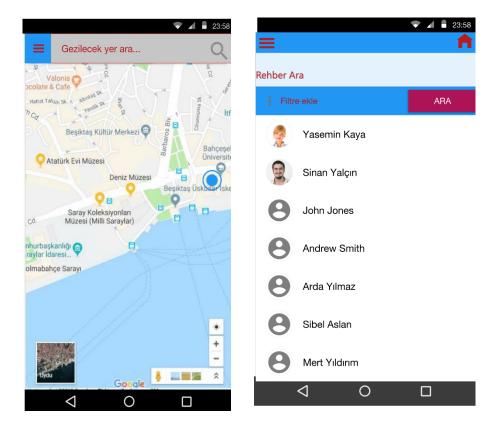

#### 1.5 Products and Services

- Our service is a mobile appilication.
- Our application provide to users two option to travel. One of our option is "travel alone". In this option people can find information about touristic places and trip recommendations. In the other option tourists can find and select their tourist guide for their request.
- By providing annual subscription service to the guides and agents, we provide easier access to their customer.

#### • PREMIUM OPPORTUNITY

- Subscripted tourist guides pay money for being upper side at 'guide searching area' than other guides.
- o Tourist guides can pay for being at home page.

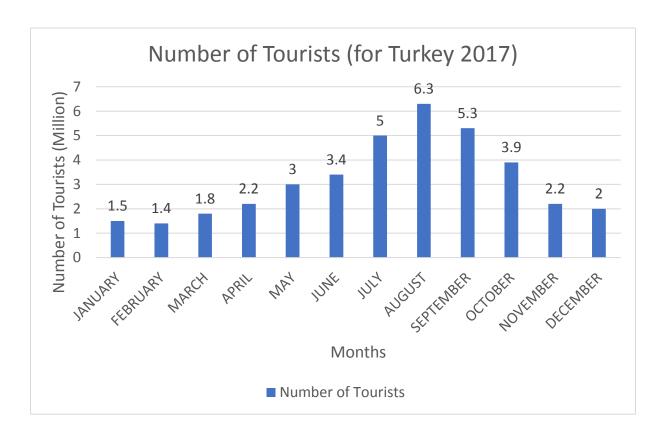

- Users can make their choices according to tourist guide's informations and give stars they have from other users.
- For tourist ,instead of doing a long and detailed search on the internet,we provide them important information we have prepared before.

#### 1.6 Market Analysis

#### **Target Customer:**

- Amount of Native and Foreign Tourist In Turkey
- Our target customers are people who give importance to technology and make transaction using mobile phones.
- Tourist Guides (15.000+)(according to TURSAB statistics)

#### **TURSAB STATISTICS**

Over the years, we are aware of that, in our country, the number of tourist and tourist guide is increasing.

(2014-2017) The decrease in the number of tourists due to the cyclical situation in recent years with the depreciation of the Turkish lira, in 2018 turned to a positive situation.

# 1.7 Marketing Plan

- Our application is available on IOS, AndroidOS and web platforms.
- Our price staretegy is appropriate to all tourist guides.

- Tourist guide can get a top-of-the-line premium for his/her profile's search lists
  to be listed first only in the top part of the advanced sorting option and for
  further viewing.
- A competing tour company will try to highlight their applications, but in our application we will be preferred against the competing tour companies because of the diversity of the contacts and the guide features are at the forefront and can be selected by the users.
- The application is free for three months from the beginning the business.
- Advantages of our mobile application are that we are receiving fixed
  payments, not receiving commissions, offering unlimited job opportunities and
  the opportunity to make more money.
- At the same time, we provide unlimited and free information about the tourist places that the agencies cannot provide.

### **Promotional Strategies:**

- If subscripted tourist guides share our ads, we will give a discount to their payment.
- We will make a raffle every month among the tourists who are download our application.
- We will determine the traveller with google ads service and publish advertisement to them.
- We will give advertisement to airline companies.

# 1.8 Competition

- We are better than other tourism agents in our competition because we do not take commissions, our guide diversity is high and users choose their guides according to their preferences, they also can vote and comment on online mobile app.
- We are better than google and 10ikipedia to giving information because the
  information is more collective and efficient, the goal can be reached in a
  shorter time and it is easier to access content that can be wondered.
- Agents receive commission as much as they find a job for guides. Otherwise we take constant payments.

# 1.9 Location

- Business Adress: Talatpasa St. No:5, Esentepe, Sisli/Istanbul
- Leased
- It includes water, electric, internet, natural gas
- Kolektif House is a convenient place that provides a good network filled with collective home startups. Sisli metro line, metrobus and bus options are within easy reach of the city center. Green, abundant, sharing space high, inspiring, free, spacious environment. At the same time, high-speed internet, daily cleaning and 24/7 use is offered.

#### 1.11 Swot Analysis:

#### • Strenghts:

- -We can respond quickly to problems without the need for approval of any higher management.
- -We work fixed fee and do not get commission.
- -If we think that the market is not suitable for us, we can easily change places.
- -Tourists choose guides according to their wishes.

#### • Weaknesses:

- -Less awareness of our company in the market.
- -Our experience less than competing firms.
- -Cash flow may not be safe in the early stages.

#### • Opportunities:

- -As we are a new company, we tend to grow and develop.
- -We are in a very convenient location.
- -No competition in the low.
- -Be convenient in terms of our country's tourists.

#### • Threats:

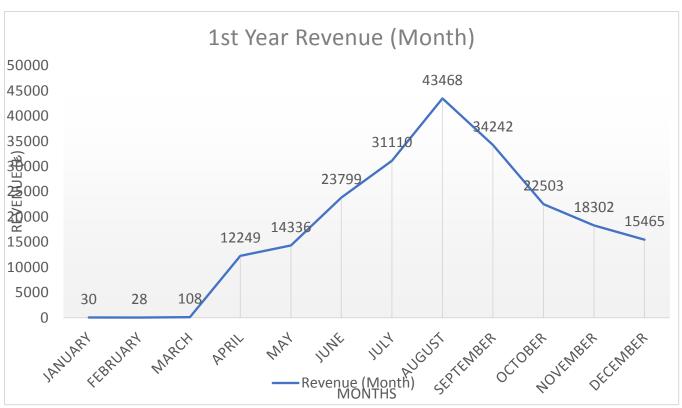

- -Competition will increase as the company grows.
- -Increase in the search for place in the market.
- -Increased likelihood of imitating firms.
- -Lower service cost than competitors.
